Payton Koch

UI Designer

Creative User-Interface designer with understanding of User-Experience research and testing practices. My mathematics background allows seamless collaboration with developers while my expertise in numbers and data brings organization and structure to any team. My passion is to always make sure the user experience is simple, intuitive, and beautiful.

Professional Experience

Statement PR Research Assistant 2019 - 2020

- Gathered, researched, and prepared information for documents needed
- Summarized findings in documents assuring proper alignments and design

Upstream Investment Partners Branch Director Assistant 2017 - 2019

- Responsible for openly exchanging ideas and opinions, elevating concerns, and personally following defined policies and procedures
- Ensured that actions and behaviors drove a positive customer experience
- Developed new filing and organizational practices, created an Administrative Assistant Office Manual for new trainees, and took on all front-end responsibilities as an admin

Projects

Intensive project-based training program with a focus on UI design, UX research and testing, and prototyping.

- Developed a cocktail recipe responsive app by researching, creating user personas and flows, and designing screens for four breakpoints using Adobe XD

[View project](#)
